

Public Information Centre #1

Highway 69 Four-Laning

Magnetawan River northerly to Highway 522

THE PROJECT

URS Canada Inc. has been retained by the Ministry of Transportation (MTO) to undertake the Detail Design for the four-laning of approximately 20 km of Highway 69 (Magnetawan River to 3.9 km North of Highway 522 - G.W.P. 5404-05-00). The preferred alignment for this section of Highway 69 was identified and documented in a Route Planning Study (January 2008). The Detail Design for this Study Area has been divided into separate segments for construction.

THE PROCESS

This Public Information Centre will present information for the CN Rail re-alignment (Segment 1) and the general plans and principles of environmental protection for advance tree clearing on the entire 4-lane corridor. An overview of the Study Area outlining traffic movement to access various local roads and communities (i.e. Britt) will also be displayed.

This project is following the planning process for Group "B" projects under the MTO *Class Environmental Assessment (Class EA) for Provincial Transportation Facilities* (2000).

In accordance with the Class EA, a Design and Construction Report (DCR) will be prepared for each of the main contracts. Each DCR will undergo a 30-day public review period with public notice advising of the review period. Future Public Information Centres will also be held. Notices will be published for each.

PUBLIC INVOLVEMENT

This Public Information Centre (PIC) will provide you with an opportunity to review and comment on the project details and ask questions of the Project Team regarding scheduling and traffic access.

Date:	Tuesday June 28, 2011
Location	Holy Family Church Hall Britt, Ontario
Time	4:00 pm to 7:00 pm
A brief overview of the Project will be presented hourly to all present	

We encourage you to attend this PIC.
